Third-Party Risk Management QuickStart

The fast and scalable way to screen and manage your third parties

If you're managing third-party risk with spreadsheets and email today, GAN Integrity's TPRM QuickStart gives you a proven, built-in way to onboard vendors, screen them for risk, and keep a clear record without a long setup project.

30-DAY IMPLEMENTATION TIME

What It Does

One simple path to onboard vendors

A single, ready-made process takes a new third party from intake to a completed screening with no setup project required

Best-practice questionnaires

Access a proven internal and external questionnaire built on industry best practices that you can start using right away

Vantage by Control Risks Screenings

Every third party is automatically checked against sanctions lists, watchlists, government ownership, and negative news, all powered by Vantage by Control Risks

Easy approvals

A straightforward two-person sign-off keeps decisions accountable, without a complicated approval chain to configure

> We need [our platform] to be pretty **simple, straightforward, and easy-to-use**, and that was one of the things that really appealed to me about GAN.

WHY TEAMS CHOOSE IT

Get started fast. *Grow whenever you're ready.*

The fast and scalable way to screen and manage your third parties

~30 days

from kickoff to a live program

1,000

third parties covered out of the box

256

countries covered for data screening

Quick time to value

Skip the long configuration project. Your program is ready to run in about a month, using a setup built on what already works.

One inclusive package

Onboarding workflow, questionnaires, and risk screening data all come bundled together with nothing extra to piece together yourself.

Straightforward pricing

One predictable price covers the platform, screening data, and setup sized for scaling up your TRPM program.

Room to grow

As your program matures, move into GAN Integrity's full TPRM platform with access to more data partners and more flexibility.

> **Reducing average third-party review cycle time by around 97%** has freed up our team to focus on high-risk matters.
